Thanks. A SANS number has already been assigned. Please remind Carl to e-mail Grace if he has not already done so.

Hi – So I noticed there were some edit question marks on the second page of the attached document in regulations.gov. Maybe there's another revised version that I didn't see but if not, you might want to get a version posted without the question marks. I was just looking through a couple things trying to gain a better understanding when I happened across this.

Also, do you need help with getting the Start Action Number (SAN) assigned by OAR/OP for the final rule?

Thanks
